

A Powerful Unified Messaging Solution

The Repartee® LX PC-based unified messaging solution from Active Voice brings you the power of centralized message control by allowing you to manage your communications over the telephone or from your PC. Repartee LX leverages the simplicity, strong performance, reliability, and inherent cost-savings of the Linux operating system. With Repartee LX, accessing messages and managing calls is easy and convenient.

Impressive Features

The Repartee LX system offers several feature enhancements, including a Web Administration Console, compatibility with hardware from proven industry leaders like Dell™ and Intel®, fax messaging, and digital integrations. With these latest features, you can rest easy knowing your business is using one of the most proven and reliable messaging systems on the market.

Web Administration Console. The intuitive design of the Web Administration Console makes Repartee LX system set-up and administration more efficient. At a glance, administrators can quickly navigate the Repartee LX system, set up new accounts for new users and groups and run reports.

Administration of the system can take place on site or from a remote location.

Fax Messaging. With Active Voice's ActiveFax® and ViewFax™ modules, Repartee LX users can manage fax messages with ease. You can receive fax notification over the phone and redirect messages to any fax machine. You can also quickly sort through all of your messages, then preview, print and redirect faxes from the convenience of your desktop. Repartee LX with fax capabilities allows you to access,

retrieve and respond to fax messages promptly via the telephone, whether you are working from the office or traveling on the road.

Digital Integration. The Repartee LX solution provides digital emulations for Avaya, Mitel, Nortel, and Siemens telephone systems. Tight digital integrations can support powerful features, such as Caller ID or disconnect supervision. Choose from 4- or 8-port digital voice boards and save the added expense of adding hardware to the PBX.

Affordable

Help your organization become more responsive with Repartee LX and its advanced unified messaging, voice mail and automated attendant functionality. Through its suite of unified messaging and call management applications, Repartee LX provides you with the most cost-effective unified messaging solution available today.

Proven, Reliable and Flexible

Built upon a proven, flexible platform, the Repartee LX system delivers feature-rich performance, superior reliability and sophisticated functionality. Your business will benefit from better customer service, increased accessibility and investment protection in your communications infrastructure.

The Repartee LX system is offered as a software package or in pre-bundled VoiceMate® configurations. Both options provide customers with standard voicemail capability and can be combined with proven hardware from industry leaders. Tailor your system with optional packages, such as hospitality, text-to-speech, desktop messaging, and call control.
